

Giacomo Cirò

ABOUT

I am a Computer Science student aiming at a career in Machine Learning research, Software Engineering, and Data Science. My academic background and practical experiences have equipped me with comprehensive skills in data analytics, interpreting data, and applying linear algebra and applied mathematics to solve complex problems. I have a proven ability to develop and implement mathematical models and proficiency in using mathematical and programming software. Additionally, I excel in data visualization techniques to communicate insights effectively and can't wait to contribute to innovative projects and drive impactful solutions in the tech industry.
